## USING THE BOAT LAUNCH

Due to limitations of the Marina Park Boat Ramp with respect to parking, location, size, level of use and safety, the following courtesy rules are suggested. Your consideration is appreciated.

1. Priority is established on the principal of first come, first served. The first car and trailer waiting in line shall have priority.
2. Always use a spotter when backing up and using the boat launch. Single-handed launching or loading creates unnecessary delays and safety concerns.
3. After you load your boat, please pull forward to the tie-down zone and clear the ramp so others may use the boat launch.
4. Sailboats are asked to rig vessels prior to entering the boat launch staging line.

### STEPS FOR USE:

1. Back up to bollard
2. Make certain trailer or vehicle are completely over boat launch metallic sensors.
3. Activate launch
4. Launch/Load and Leave

**DO NOT REMAIN OVER BOAT LAUNCH  
BOLLARD MORE THAN 15 MINUTES.**

**This can result in damage to your boat or vehicle.**
